Production / Maintenance / Assembly Support | Shift Work | Site Operations

Summary

Practical operations and technical-support candidate with experience in production environments, night-shift work, day-to-day site operations, and technical maintenance coordination. Used to structured routines, physical work, documentation, quality expectations, and keeping active work sites running. Brings a reliable hands-on background from food production support, FMCG operations, building maintenance coordination, and technical systems work.

Relevant Evidence

- Worked night shifts in a food production environment as Industrial Cleaner at DR. Oetker Ltd.
- Supported day-to-day operations of a small FMCG meat-processing business, including work-site organization and operational continuity.
- Coordinated technical maintenance and modernization work across several active sites, from issue intake through completion and handover.
- Cooperation with IDS Operations LTD was confirmed by reference and regular KBR audits.

Key Skills

- Production-environment routines, hygiene standards, and shift work
- Hands-on site support, workplace organization, deliveries, and operational follow-through
- Basic mechanical and technical support on site, tools, and simple troubleshooting
- Technical maintenance coordination, work planning, contractor follow-up, and handover
- Documentation, quality checks, audit readiness, and structured reporting
- Excel and fast adaptation to CMMS / CAFM-style systems
- Driving licence B+E
- Polish native; English fluent

Experience

Co-owner / Technical Operations Support

Zakład Miesny Kwatery, Torun | 06.2014-09.2024

- Supported day-to-day work in a small FMCG meat-processing business, including active site operations, work organization, deliveries, and practical technical support.
- Coordinated maintenance and modernization tasks across several active sites, keeping issues, contractors, schedules, completion, and handover under control.
- Worked close to operational problems where continuity, reliability, clean execution, and fast follow-through mattered.
- Maintained documentation and supported quality/audit expectations linked to external cooperation and regular KBR audits.

Independent Consultant - CCTV and Building Systems

Poland | 2015-present

- Delivered practical technical projects for business and private customers, including requirements checks, equipment selection, configuration, commissioning, and handover.
- Supported low-voltage, monitoring, and building-systems work requiring careful installation, basic troubleshooting, and clear client communication.

3rd Line Support Engineer

Blackpool NHS Foundation Trust, United Kingdom | 12.2012-07.2014

- Worked in a high-availability 24/7 environment where incidents, changes, maintenance tasks, and continuity mattered.
- Supported critical IT systems including Active Directory, Exchange, VMware vSphere, and Commvault backups.

Industrial Cleaner

DR. Oetker Ltd, Leyland, United Kingdom | 06.2009-02.2012

- Worked night shifts as Industrial Cleaner in a food production environment.
- Followed hygiene requirements, shift routines, and order standards before daily production.

Earlier B2B Roles

Samas Poland LTD; Martela Poland LTD | 2007-2009

- Managed business clients, prepared offers, coordinated delivery details, and supported project execution.

Technical Background

Excel, Windows Server, Active Directory, Exchange, VMware vSphere, Hyper-V, Linux, Commvault, Dahua, Hikvision, SolarEdge, Victron VRM, Tech Sterowniki
